

Caring for your family member with the dignity & respect they deserve

Nature's Way Pet Aftercare's mission is to provide our tristate area with an unmatched level of compassionate animal end-of-life service. We celebrate the human-animal bond by providing innovative ways for a family to enjoy and remember each stage of their pet's life.

CREMATION TYPES

INDIVIDUAL

When you choose individual cremation, your treasured pet is placed into the crematory and separated from the other pets with partitions. When the cremation process is complete, we ensure that you receive only the cremated remains of your pet.

COMMUNAL

Keeping the memory of your pet close to your heart, a communal cremation offers both peace of mind and solace. With communal cremation, your pet is gently placed into the crematory together with other pets. Cremated remains are not returned and released into a forested preserve.

Nature's Way

Pet Aftercare

If you choose Individual Cremation, your loved one will be returned to you in one of the complimentary urns below. They include an air dry clay paw impression, a clipping of your loved one's fur, a seed tag to plant, and a certificate of cremation.
