

Online Pet Pharmacy Warning

-We are willing to write prescriptions for our pet's medications for online pharmacies as long as they are up to date on their vaccinations and have had a heartworm test performed within the last year.

+This is to ensure the pet is heartworm disease free and healthy.

-The FDA has issued warnings to pet owners to have caution when buying heartworm preventatives online

+Online pharmacies cannot purchase heartworm preventative directly from the manufacturer.

-This means that it has been diverted from a veterinarian breaking their contract with the manufacturer.

Or

-The pharmacy has obtained it from another country.

+When purchasing online heartworm medication the manufacturer's warranties are void.

+There have been numerous reports of the medicine being analyzed and found to be expired or not even the correct medicine at all.

-Please be careful when purchasing heartworm preventative online.
